OBJECTIVE

Former High School Math Teacher and Coach seeking a new challenge to apply mathematical skills within a data-based career. Hard-working problem solver with the desire to help people.

SKILLS

- Excel
- Tableau
- SQL
- Power BI
- Data Analysis
- Problem Solving
- Organization
- Multitasking
- Teaching
- Coaching
- Time Management

DATA PROJECTS

Education Data: Created a dashboard in **Tableau** to analyze education data and provide recommendations to increase test scores and college attendance rates.

Sales & Marketing Data: Used **Excel** to analyze marketing trends within a delivery app and used pivot tables to create data visualizations.

Financial Data: Created queries in **SQL** to analyze loans and grants from the World Bank Group to discover which countries have the most transactions and owe the most to the IDA.

Healthcare Data: Used **SQL** to analyze diabetic patient trends for time spent in the hospital and the number of procedures.
